SESAM Project

E-learning System for Better Healthcare in Madagascar

Univ. di Pavia - Collegio S. Caterina da Siena

1/10/2025

marco.raggio@unige.it

The Challenge

Limited access to
modern training tools

Scarce healthcare
education resources

Logistical &
infrastructure barriers

Our Vision

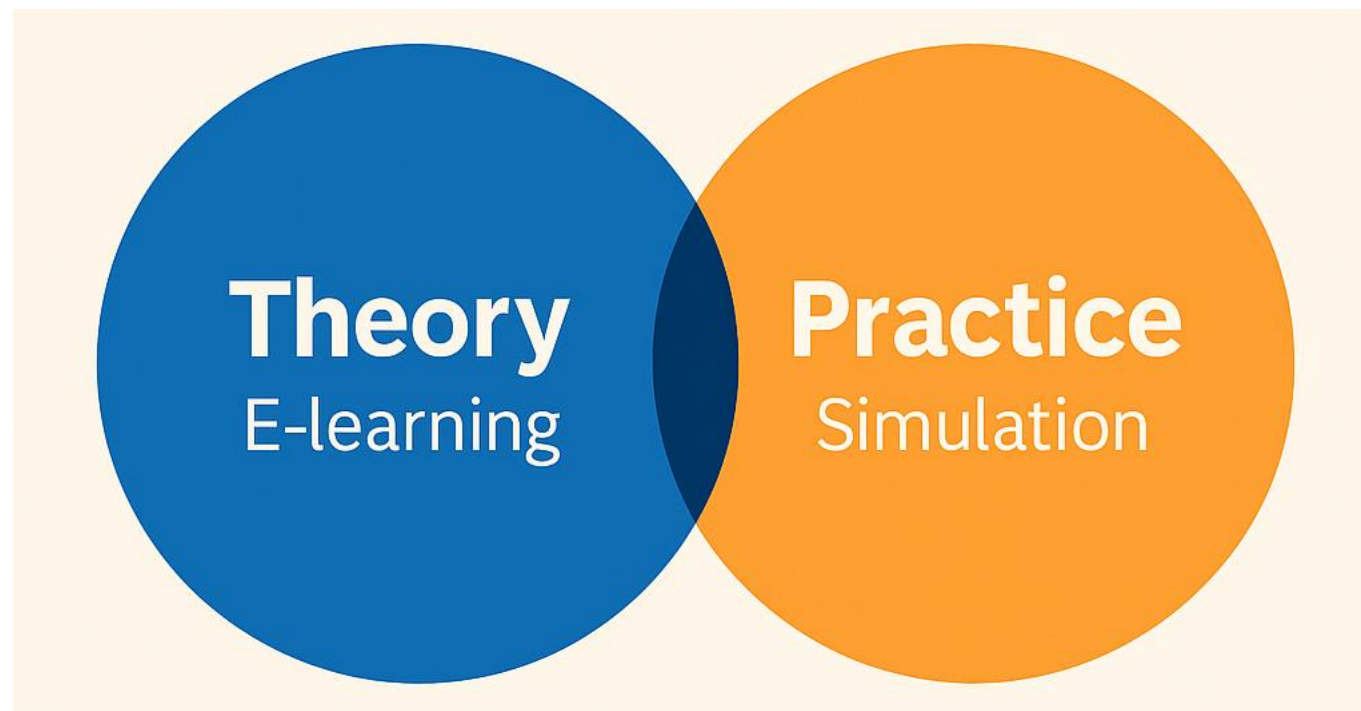

Bring Madagascar's medical education to international standards

- Interactive e-learning
 - Medical simulation
- Access to global specialized courses

The Goal: healthcare training

Train doctors and nurses in Antsiranana

Università
di Genova

SimAv SIMULAZIONE
E FORMAZIONE AVANZATA

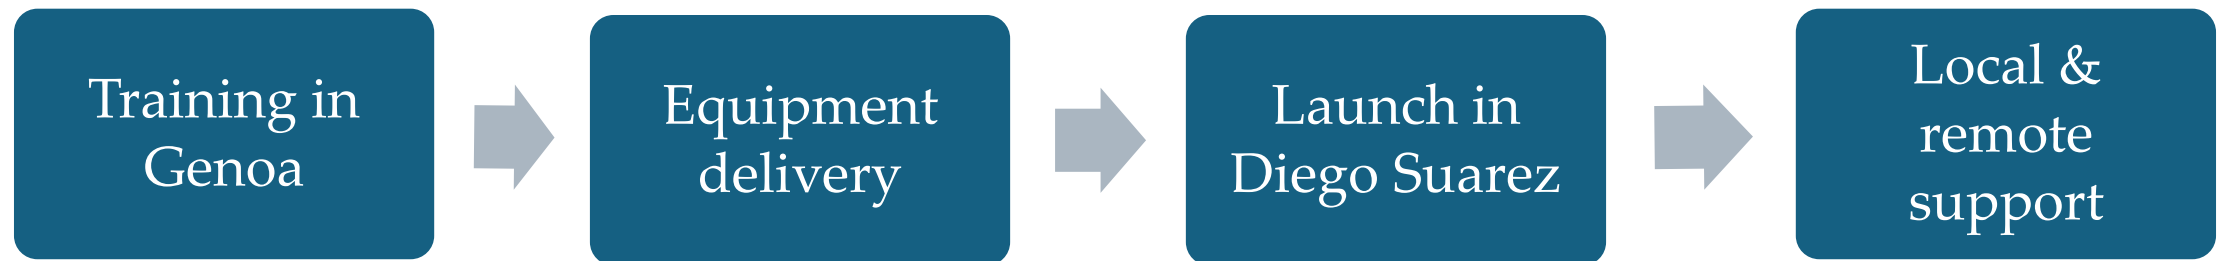

What We Build

- Local open-source e-learning platform
- Servers, PCs, video systems
- Medical manikins & simulators
- Training for technicians & doctors

Project Phases

The Partners

 *Rotary Clubs (2032, 2080, Milano Duomo, Nosy Be, Rotaract Genoa)*

Polyclinique NEXT Diego Suarez

University of Antsiranana & University of Genoa

Expected Impact

Access to **modern training** for hundreds of students

Better healthcare quality for the population

Strong, lasting international cooperation
